

Environment Protection Policy

Excellence Logging is committed to preserving the Environment in all its activities, products and services through best environmental practices, optimized Waste Management and Go Green initiatives.

Our Goals are: to address any actual or potential impacts on the environment in order to avoid or minimise such impacts and minimise any nuisance, disturbance or interference; to adhere to the applicable rules and regulations - whether of legal status, of industry standard and/or any rules and regulations related to special local circumstances or requisites from customers.

Company Management holds the responsibility to ensure the requirements of this policy are communicated, understood and applied. All employees, contractors, suppliers, consultants, temporary staff and all personnel affiliated with third parties working for Excellence Logging must respect this policy.

Our requirements are: to take account of the best suitable environmental practices; to carry out an efficient and safe waste management; to use the highest prevailing and approved standards of care and diligence to avoid contamination of any kind resulting from our activities; to act as far as practicable to preserve air, water, animal and plant life from adverse effects of our activities.

Maintaining an excellent reputation for environmental protection requires vigilance at all times. **Everyone** is encouraged to identify risks and opportunities. We are determined to provide the necessary resources to achieve our goals and will support initiatives for continuous improvement of the OMS.
